

Stand Out in the Industry - Become a Certified Green Professional
Open to everyone in the Home Industry

Green Building

September 1 & 2, 2010
Wednesday/Thursday
8:30am-5:00pm (8 am reg.)
HBA • 799 White Pond Dr.
Akron, OH 44320

Green Building for Building Professionals

Implementing cost-effective green building into your construction practices begin with up-front planning that examines the whole house and the building science behind it. In this two-day course, you will learn how to apply the ANSI-approved National Green Building Standard™ in the construction of a new home, remodel, site development or multifamily project. With a focus on flexibility and a sound knowledge base, the course provides the tools for a successful green project.

As a graduate of this course, you will learn:

- How to integrate sound building science principles into design decisions and the materials selection process
- Examine specific best green building practices in each chapter of the National Green Building Standard
- How to evaluate and sell in the growing green marketplace

Earns Designation Credits for: CGA, CGB, CGP

Earns Continuing Education Credit for: CAPS, CGA, CGB, CGR, GMB, CSP, MasterCSP, CMP, MIRM
